Agenda:

1. The results and outcomes of the “Trans-Regional Environmental Awareness for Sustainable Usage of Water Resources” project.
2. The strategy for further interaction with industrial partners in the direction of the project.
3. Technical and informational support of the project.

Decisions:

As part of performance of the project scope:

1. Consider the project implementation to be successful.
2. Conduct retraining courses on a self-sustaining basis at all partner universities in Russia and Kazakhstan and organize networking with representatives of the water sector to prepare feedback on the retraining courses as the final part of the project (until October 10, 2019).
3. Organize joint retraining courses with the conclusion of an inter-university agreement between Altai State University (Department of Environmental Management and Geo-ecology, responsible person – Dr. T.V. Antiufeeva) and L.N. Gumilyov Eurasian National University (Department of Environmental Management and Engineering, responsible person – Dr. R.R. Beisenova).
4. Organize retraining courses (at least one) at partner universities of Kazakhstan and Russia in 2020 in order to ensure the sustainability of the project results and for post-project monitoring.
5. Develop a networking strategy for further interaction with industrial partners along the lines of the project (responsible persons – Dr. N.V. Zhrebiateva, Dr. R.R. Beisenova, Dr. T.V. Antiufeeva).
6. Provide technical and informational support of the project at the final and post-project stages (responsible person – N.V. Zhrebiateva).

Deadline for implementation: October 10, 2019
